### KEEP IN PERFECT HEALTH MAKE RICH BLOOD

RECOMMENDS WHITBREAD

The wonderful tonic and beverage of Whitbread is made from the finest barley, malt and hops to be obtained, and is recommended by the great doctors in England because it is matured in bottles in England and sent direct to America, and contains only its natural gas. Whitbread English Ale or Whitbread Renowned Stout (Malted Extract) are unlike all others, being most easily digested; in fact, a wonderful tonic for the stomach. For sleeplessness, anaemia and for mothers, invalids and those in a run-down condition it is invaluable. Whitbread Ale or Stout has been an instant relief to thousands of

suffering women. The most temperate drink Whitbread Ale or Whitbread Stout because they are not only a delicious beverage, but a tonic and blood giver. Doctors, clergymen and professional men consume Whitbread Ale or Stout to build up the system and for nervousness due to overwork. A glass of Whitbread at night and with the meals gives that restful sleep. Do not accept any substitute as Whitbread Ale or Stout are unlike all other English Ales or Stouts, being matured in bottles. A trial from your local dealer will convince you of the wonderful effect of Whitbread Ale or Stout.

## ANNUAL BUDGET IS TWO MILLION

Figures Made by Auditor's  
Office Show Cost of State  
to Taxpayers Under Specific  
and Estimated Appropriation Bills

From the estimated budget made out in the auditor's office from a close survey of all the enactments of the legislature heretofore in session, the cost of the state government to the taxpayers for the fiscal year ending June 30, 1914 will be \$2,000,000, which is just exactly \$230,000 more than for the year immediately previous.

In order to obtain this amount a great amount of work was necessary. Every bill that has heretofore been passed by the legislature in addition to the general appropriation bills. This is no small task when it is considered that many bills carrying appropriations passed when Arizona was a territory are still in force and effect.

The general appropriation bills generally carry the words "there is hereby appropriated from the general fund the sum of \$— for such and such a purpose." The specific appropriation bills carry the words "there is hereby appropriated the sum of \$— for the purpose of carrying out the purposes of this act," while the estimated appropriation bills sometimes say "there is hereby appropriated so many dollars or so much thereof as may be necessary to carry out the purposes of this act" or sufficient money is hereby appropriated out of the general fund to carry out the purposes of this act.

In detailing the bills from which is obtained the appropriations two pages of foolscap typewriting were found necessary as nearly one hundred bills have been passed carrying appropriations. There are annual appropriations that are specific which will be sent this year to the amount of \$825,000, while the estimated appropriations are \$162,000. These are for state institutions and departments of state, and the increase over last year here is exactly \$2500.

Then there are other specific appropriations such as road funds, school funds etc., of \$945,997.40, and estimated appropriations such as the tax commission fund of \$66,300, which brings the totals over the two million mark. There are slight increases all along the line until the total increase of \$230,000 is reached.

## GAME WARDEN ROGERS RETURNS FROM HILLS

Ten Days' Trip Into Tonto Section  
In Interest of Department.

Frank W. Rogers, state game warden, returned yesterday morning from a ten days' trip into the interior of the Tonto National Forest where he went to look into some alleged deer shootings that were said to have occurred in that section some two weeks ago. Mr. Rogers returned without having made any captures but he succeeded in letting the ranchers know that he is pretty much on the job, as the hunting license record will show by the end of the month.

Incidentally he worked over the Sierra Ancha mountains, made many acquaintances and interested the cattle and sheepmen as well as others in the state policy of game conservation. The net result of this will be more lookouts for violations of the game laws, and a probability that deer will be no longer ruthlessly shot in that section.

The forest rangers in the Tonto forest, are by agreement with the Forest service all acting in co-operation with the game warden in suppressing game depredations.

In a short time the game warden expects to make another detour of inspection of the Elk that are loose in the forests of the north and center.

## OUTBREAK AMONG YAQUI INDIANS

Mescal Jamboree Saturday Night Results in Free Fight.

The Yaqui Indians who are living on the south side of the river bought some mescal from a Mexican Saturday night and proceeded to have one glorious jamboree. The result of the fiesta came to light yesterday when word was received by the sheriff's office that three men had been badly cut in a fracas that followed. Sheriff Jeff Adams accompanied by a force of deputies left for the scene of action and succeeded in finding one of the combatants considerably the worse for wear whom they brought in to the county jail.

The man gave his name as Juan Oovarieda and his injuries consisted of a very badly cut forehead. Shortly after he was placed in the cell another Yaqui arrived at the jail and he told the sheriff all about the fuss. It appears that the Indians had just been paid off after working in the harvest fields. The amount of money that they had received looked so large to them that they decided to have one big time. Just then the peddler of the trouble water arrived upon the scene whether by accident or design remains unknown. The Indians purchased a liberal supply of the liquor and accompanied by their squaws proceeded to fill up. Unfortunately the liquor instead of making them happy had quite the reverse

effect and in a short time the brawlings and struggles of the combatants had leveled nearly all the hogans in the encampment. In an instant knives were flashed and the party lined up and proceeded to have a fight that would have put the principal battles of the Mexican revolution to shame. One of the more sober residents attempted to separate the ringleaders and in so doing received a slash across the bridge of the nose that nearly punctured his eye. Notwithstanding his injuries the peace maker succeeded in disarming the combatants and this was a signal for instant peace.

The other ringleader succeeded in eluding the officers for a time but he is expected to be captured in a short time. Oovarieda will appear before United States Commissioner Johnstone within the next few days and if his opponent is laid by the heels he will have the pleasure of being tried at the same time.

## MASS MEETING IS LARGELY ATTENDED

Fully One Thousand People Attend  
City Hall Gathering.

In four consecutive speeches made at the mass meeting held by the union men of this city yesterday for the purpose of awakening additional public sentiment in behalf of the striking street car men, many statements of the most radical character were made, statements that were scarcely warranted by the facts or the condition of the situation. The mayor and police force were assailed, the corporation commission was attacked, and every state official with the exception of Governor Hunt was made the target for some radical statement or other.

The speakers were R. A. Campbell, E. Johnson, John W. Martin and H. F. Kane, the editor of the Socialist Bulletin published in this city. John W. Martin spoke longer than any of the men and was quite rabid in his denunciation of the officials, state, county and city. He works for the state in the office of the board of control. All the speakers are socialists.

The meeting started out in splendid shape. A parade which was joined in by some four hundred members of the various trade unions of the city, led by the Pioneer band, marched over the principal streets of the city, and by the time the gathering reached the City Hall plaza, fully one thousand people were there. There was however no disorder in spite of the fact that some of the speakers advised that the strikers take the law in their own hands.

Aside from this the street car company took a hand in the situation yesterday and in public answerment offered to take such of the old men back as applied for positions within the next twenty-four hours.

until the vacancies were filled. The union men are working hard upon the proposition of the auto bus line which they hope to get established in a short time. They expect it to compete with the street car line in every particular. In the meantime also the car company is breaking in more men to replace the shipped in strike breakers.

## MIKADO'S MEN ARE

(Continued from Page One)

Japanese in foreign lands. The Japanese, he asserts, enjoy high repute in labor circles in Hawaii and

give satisfaction to their employers in general, but even in Hawaii some signs are already visible of the exclusion of the Japanese in the future. For instance, the land owners in Hawaii every year send over for laborers from Portugal and Spain and give them higher wages than the Japanese.

Mr. Ebara cites the report of the Hawaiian chamber of commerce, in which it is alleged that the Japanese do not care to fraternize with the Hawaiians and cling too much to their own customs and habits. The report claims that the Japanese settlers do not take any interest in the welfare of Hawaii, and it would be better for Hawaii to replace them by Spaniards, Portuguese and Filipinos.

Miss Mignon Hopkins and Governor Sulzer.

Miss Mignon Hopkins, who is suing Governor Sulzer of New York for \$30,000 for breach of promise, now produces a poem that reads: "Oh, Polly, dear, I somehow fear my end is near; my head feels queer, sweet Polly, dear!" said to have been written at a time when Sulzer was very ill. The governor says the suit was instigated by political enemies and that he will fight to a finish.
